Examiner's statement of reasons for allowance

The following is an examiner's statement of reasons for allowance:

4. Claims 1 and 20, are allowed because prior art fails to show an apparatus and method of separating ions where the ions are introduced into an analyzer region that operates in both RF-only and FAIMS modes. The ions are first selectively separated in the analyzer region during operation in the FAIMS mode, then the analyzer region is switched from the FAIMS mode to the RF-only mode to extract the selectively separated ions from the analyzer region during operation in the RF-only mode.

5. Claims 2,4-19,21-28, and 30-37 are allowed by virtue of their dependency upon allowed claims 1, and 20.
